Long Beach, California 90808

Subject: Soil Vapor Extraction, Building 1/36 Area
Quarterly Report Number 14, First Quarter 2005
Former C-6 Facility, Los Angeles, California

Mr. Mossman,

Haley & Aldrich Inc. (Haley & Aldrich) has prepared this letter report to summarize the first quarter 2005 soil vapor extraction system (SVE) activities at the former C-6 Facility, Building 1/36 Area in Los Angeles, California (Site). The location of the Site is shown in Figure 1 and the SVE pilot test treatment area is shown on Figure 2.

This letter report has been prepared in response to the Los Angeles Regional Water Quality Control Board's (LARWQCB) reporting requirements, and is being submitted in lieu of a full quarterly report because of limited SVE activities at the Site during this quarter. The SVE system was not operated during the first quarter of 2005. It had been previously operated between 2 July 2001 and 30 September 2004 when the system was shut down and disassembled to facilitate Site redevelopment and new building construction. SVE System operational data through 30 September 2004 has been presented in previous quarterly reports submitted to the LARWQCB (Haley & Aldrich, 2004).

Quarterly data reports will resume after completion of new building construction, installation of subsurface SVE piping, and SVE operations recommence in Late 2005.

Please do not hesitate to call if you have any questions or comments.

Sincerely yours,
HALEY & ALDRICH, INC.

Patrick A. Keddington, P.E.
Senior Engineer

Scott P. Zachary
Project Manager
